Fire retardant
painted cladding

TREATED

UNTREATED

In compliance with Regulation 305/2011/EU of the European Parliament and of the Council of 9 March 2011 (the Construction Products Regulation or CPR), this certificate applies to the construction product

Solid wood panels and cladding
Fire-retardant paint, class B-s1,d0
Fire protection treatment options in Annex

placed on the market under the name or trademark of

Puidukoda OÜ

Karksi küla, Muugi vald, Viljandimaa, Estonia

and produced in the manufacturing plant(s) Karksi küla, Muugi vald, Viljandimaa, Estonia

This certificate attests that all provisions concerning the assessment and verification of constancy of performance and the performances described in Annex ZA of the standard(s)

EN 14915:2013

under system 1 for the performance set out in this certificate are applied and that the factory production control conducted by the manufacturer is assessed to ensure the constancy of performance of the construction product.

This certificate was first issued on 2018-03-21 and will remain valid as long as neither the harmonised standard, the construction product, the AVCP methods nor the manufacturing conditions in the plant are modified significantly, unless suspended or withdrawn by the notified product certification body.

The validity of the certificate can be verified on the Internet at www.inspecta.fi.

Inspecta Sertifointi Oy, notified body No 0416, has issued the certificate on 2018-03-21.

Painted wooden exterior and interior cladding with Fire Class B-s1,d0

- Enhanced fire safety properties!
- Compliant with new European fire safety regulations, certified with SBI testing according to the EN 13501-1 standard.
- Enables to use wooden wall panels and claddings also on public buildings and multi-storey apartment buildings with higher fire safety requirements.
- The Fire Retardant cladding forms a heat resistant microporous carbon foam layer in direct contact with fire, that isolates the wood from the heat.
- Durability in end use fire safety compliant with CEN/TS 15912 – DRF class INT1 and INT2

EXTERIOR CLADDING

- For opaque painted exterior cladding we use TEKNOS water based fire-retardant paint TEKNOSAFE 2407-00
- For transparent painted exterior cladding we use NORDTREAT water based fire-retardant wood stain NT Deco

INTERIOR CLADDING

- For transparent interior cladding we use TEKNOS water based fire-retardant laquer TEKNOSAFE 2467-00 or NORDTREAT water based fire-retardant wood stain NT Deco
- For opaque white colour interior cladding we use TEKNOS water based fire-retardant paint TEKNOSAFE 2457-00
- For opaque painted interior cladding we use TEKNOS water based fire-retardant paint TEKNOSAFE 2407-00
